

# CONE TRAILER

*Double cone trailer offers 6,000 gallons total capacity of portable storage*

The Wylie Cone Trailer is versatile mobile storage for fertilizer, water or other farm chemicals. The trailer is towed empty to the location, lowered to the ground and filled with product. After emptying the tanks, the frame can be raised with the hand hydraulic jack and moved to a new location.

*Double cone trailer in lowered position*

*3" fill coupling conveniently located at rear of trailer*

*Optional transfer pump available as well as "Mix-n-Fill" tank*

- **1, 2 or 3 - 3,000 gallon tanks**
- **White or black 1.5 SG tanks for water based chemicals or Blue 1.9 SG tanks for fertilizer**
- **Heavy-duty 6" channel iron frame**
- **15° slope for total cleanout**
- **12' 6" transport height**
- **9.5L x 15 tires**

*Single cone trailer*
