### *New Features & Options Make 3 pt “Defender” Sprayer The Best Yet!*

- Hypro manual control combines two on/off valves and a pressure relief valve along with a pressure gauge (for roller pumps & gear pumps). Select trigger gun or boom/ boomless nozzle.
- CDS/John Blue Diaphragm PTO pump is built for higher pressure applications such as tree spraying or cattle spraying. Operating pressures of up to 580 psi requires high pressure control valve and high pressure hose.
- The Hypro model 3381-0043 trigger gun features an easy-to-handle short metal barrel and poly body.
