# AG System Trailer Spreaders

Ag System all-new adjustable wheel track spreaders provide years of rugged use. They feature a high-grade 304 stainless steel unitized one-piece body construction. Conveyor trough, meter gate, rear skid section, gearbox mounts, and roller chains are also constructed of 304 stainless steel for longer durability. They are available in three sizes - AG500 (5 ton), AG600 (6 ton), and AG800 (8 ton).
